STUDENT'S SUMMER CLERKSHIP OF MEDICINE PROGRAM

.....
(Student's name and surname)

.....
(Index No.)

.....
(academic year)

II

(year of study)

Students are required to complete 90 hours of summer clerkship carried out only in outpatient healthcare clinics/open medical care (General Practitioners practices), including a 6-hour work day. In order to get a credit, a student should prove the knowledge of the general principles of the clinic's functioning and practical competence in attending the patients' needs including dealing with documentation.

1. **The aim of the clerkship** is to acquaint a student with the full domain of activities connected with the functioning of outpatient health clinic (General Practitioners).
2. The function of the summer clerkship supervisor responsible for carrying out of the summer clerkship program is performed by a physician authorized by manager of a clinic.
3. The Unit organizing the summer clerkship / Person authorized by the Head of the Unit organizing the summer clerkship, credits the summer clerkship by placing an appropriate entry **in the student's summer clerkship card**. The condition for completing the summer clerkship is achieving the assumed learning outcomes by the student.

.....
