

STUDENT #ID:

STUDENT'S NAME:

## **THE FRAME PROGRAM OF THE CLERKSHIP FOR THIRD-YEAR ADVANCED MD STUDENTS OF THE FACULTY OF MEDICINE AT THE MEDICAL UNIVERSITY OF LUBLIN**

The clerkship lasts for four weeks and includes 7 hours work day. Each student should at least twice during their clerkship perform their duty in the afternoon and evening. The clerkship should be carried out in a hospital ward or day care center.

1. The aim of the clerkship is to acquaint a student with the full domain of activities connected with attending to the patient's needs, routines and administrative work in the functioning of a hospital.
2. The details of the program are established by the head of the ward. It should include the following activities:
  - A. In the administrative and routines field:
    - Familiarizing students with the hospital's and ward's structure;
    - Administrative activities concerning patients (admission, registration, transfers);
    - Supplying the ward (e.g. with food, medicine, equipment).
  - B. In the patient service field:
    - Feeding;
    - Helping dispense medicine & minor interventions;
    - Sanitary-hygienic service;
    - Assisting with examination;
    - Helping with the preparation of syringes and other equipment;
    - Practicing the performance of hypodermic and intramuscular injections;
    - Performing the hypodermic and intramuscular injections.

**Attention!**

Students are obliged to apply for clerkships in appropriate health care unit individually, with above frame program and/or dean's letter. They should set a date of the clerkship convenient for both parties.

I certify that student ..... [name] completed the clerkship of 140 hrs between ..... and ..... [full dates].
